

Marubeni Corporation
January 11, 2011

**Marubeni acquires 49% ownership interest in Raleigh Wind Energy Centre Project,
a 78MW wind farm in Ontario, Canada**

Marubeni Corporation (“Marubeni”) is pleased to announce that it has completed a transaction with Invenergy Wind LLC (“Invenergy”) to acquire a 49% ownership interest in Invenergy’s Raleigh Wind Energy Centre (“Raleigh”), a 78 megawatt (“MW”) wind farm under construction in Ontario, Canada. Raleigh will be Marubeni’s first power project investment in Canada.

Invenergy and its affiliated companies develop, own and operate large-scale renewable and other clean energy generation facilities in North America and Europe. One of the top six largest owners of wind generating projects in the United States, Invenergy and its affiliates have developed and placed in service twenty wind farms and five natural gas-fueled generating facilities, with an aggregate capacity of approximately five thousand megawatts.

Raleigh will be the second investment to be jointly owned by Marubeni and Invenergy. Since 2009, Marubeni and Invenergy have jointly owned a separate portfolio consisting of 1,041MW of gas-fired thermal power stations in the United States.

Raleigh Project Overview

| | |
|---|---|
| Company: | Raleigh Wind Power Partnership (“RWPP”) |
| Structure: | 20 year power purchase contract (Renewable Energy Supply III Contract) with Ontario Power Authority (“OPA”), Ontario Canada |
| Location: | City of Chatham-Kent, Ontario, Canada |
| Ownership: | Marubeni 49.0%, Invenergy 51.0% |
| Capacity / Technology : | 78MW / 52 GE 1.5MW (1.5xle) Wind Turbine Generators |
| Expected Commercial Operation Date: | By February 2011 |

As part of its growth strategy, Marubeni, is seeking to increase its investment in the North American power sector and will continue to pursue high quality investment opportunities in the United States and Canada.

This acquisition increases Marubeni’s global generation capacity to 25,933MW (gross) and 7,409MW (net), making it the largest overseas power generation portfolio owned by a Japanese company.
